

Beginning Monday, March 23, the Lenoir County Health Department will have new hours of operation. Members of the public, clients, and patients will be seen by appointment only from 8:00 a.m. to noon (12:00 p.m.) Monday through Friday. Please plan to come at least 15 minutes before your scheduled appointment as all people entering the health department building will be screened for symptoms. Please do not come to the health department if you have a fever or cough; instead, call your primary care provider. Afternoon appointments will only be available in certain situations. Call 252-526-4200 for appointments or questions. These public hours apply to all health department services, including WIC, Family Planning Clinic, Maternity Clinic, Immunizations, Child Health, Care Management, and Vital Records. Health Department staff will be available by phone from 8:00 a.m. to 4:30 p.m. Monday through Friday.

The Environmental Health office will also be open from 8:00 to noon Monday through Friday. Forms for permits are located on the Health Department website and can be completed before coming in. Members of the public can walk in to submit forms and pay fees.
